29/05/2021	Saturday	Computer Science
01/06/2021	Tuesday	Mathematics

Due to COVID-19 uncertainties still looming over schools, teachers, students and parents, Teaching-Learning and Assessments have been a huge challenge. For the academic year 2020-21, CBSE has released the date sheet and is all set to conduct Board examinations for grade X and XII **in Physical mode** with the approval of local government authorities. **As we are gearing up to prepare our students for the board examination, I regret to inform you that the Pre-Boards performance of our board going students is quite disappointing. Few students were examined in school premises (with parents' consent and MOE's approval) as a test dose and the outcome of physical exam as compared to online exam is quite alarming.**

In view of the same, it's time for parents to take good care and charge of their children at home as we are unable to coach and monitor them physically. However, at our end we have successfully completed the syllabus and are following discrete revision plan to ensure students are revising and attending revision classes, but surprisingly we are noticing poor attendance during revision classes. Unless our valued parents shoulder this joint responsibility with the school, we cannot expect our students to pass out with good grades/marks in the BOARD EXAM which is a stepping stone for their future success. Let us act now and not wait for surprises. COVID-19 will go but one academic year lost, can never be re-gained.

Parents are requested to ensure the following and help school to help your ward(s) pass out with flying colours:

- Get your children to start preparing for the examination **RIGHT NOW** and not wait for MAY.
- It is mandatory that your ward follows systematic study habits based on a well-prepared timetable for self-study.
- Encourage your child to solve model question papers given to him/her by the school and practice revision worksheets regularly.
- In view of COVID-19, the new question paper will have a greater number of MCQs and assertion/field study questions which require students to be thorough with all the chapters. Thorough **READING of chapters can be of great help.**
- Constant support and **supervision from parents** will play a decisive role during these challenging times.

Let us join together in preparing our children for the Board Examination and provide them with moral and emotional support. If you need any assistance from teachers/ Supervisors or Principal, please do not hesitate to reach us. We are JUST A CALL AWAY.

“Time once lost cannot be regained”.

Good Luck & Regards,

Aasima Saleem
